

The Opportunity

This is an exciting opportunity to join a young and dynamic technology company specialising in web content management and application development. We are looking for a motivated and passionate individual to join us and have an impact on the success and direction of our growth. You'll be able to work intuitively and independently as well as bringing drive, support and leadership to the team.

Key Responsibilities

- Carry out development activities to support and maintain the business focus of the organisation
- Provide technical presales and support to the sales team
- Produce technical designs that meet client requirements
- Provide input & leadership across the full project life-cycle, at times guiding the solution from concept through post implementation support

Skills Required:

HTML / XHTML / CSS / XML / RSS
ASP.Net 2.0 + / C#.Net / SQL Server / Ajax
Object orientated application design

Candidate Profile:

Senior Web Developer with a solid object oriented design & development background.

What you need:

- Substantial proven web development experience in a commercial environment
 - Excellent HTML / XHTML / CSS skills
 - A solid understanding object oriented programming
 - A solid understanding of web content management principles, with experience in EPiServer being a distinct advantage.
 - Experience in the design and development of complex web applications using C#
 - A solid understanding of relational databases and experience writing SQL queries
 - Exposure to development using Web Services and XML an advantage
 - Experience in IIS administration and SharePoint an advantage
 - Exposure to source control principles and practices an advantage
 - Experience of managing project delivery throughout the full lifecycle an advantage
 - Experience of writing comprehensive functional/technical specification documents an advantage
 - Educated to degree or equivalent level in media technologies or computer related discipline
 - Superb communication skills are a must as we are looking for someone who can interact with management, marketing, web/print designers and coordinate with other developers on our team.
-

What's in it for you?:

- Work with a talented and motivated team implementing WCM solutions and designing and integrating cutting edge web based applications
- Fun and relaxed working environment
- City centre locale
- Learn new skills
- Competitive salary
